

Available in a 90 capsule bottle or 12-pack

Transforming Turbo

Rescued from the street and adopted when he was a year old, Turbo (featured on the cover) was extremely anxious, which made it difficult for him to adapt to life with his new family. His anxiety manifested itself in every aspect of his life, from sleep to daily walks to family car rides.

Turbo would wake dozens of times a night barking and would bite if startled from slumber. On walks, even the slightest noise would frighten him so severely that he would try to chew through his leash to escape. He was also afraid of new people, aggressive toward other dogs and so anxious riding in a car that he had to be kenneled.

"A veterinarian recommended Calm, and it's made a huge difference for Turbo and our family," says Nikki, Turbo's pet parent. With Calm as part of his daily regimen, Turbo now fearlessly walks the neighborhood and will even sleep unkenneled during car rides. The startled biting has disappeared, and the kids can carry him without worry. He also sleeps through most of the night, warms more quickly to new people and is less aggressive toward other dogs. Thanks to Calm, Turbo has come a long way.

(as magnesium bisglycinate chelate)	
Passion Flower (flower).....	145mg
Valerian Root Extract.....	145mg

Other ingredients: Gelatin (capsule), Microcrystalline Cellulose, Stearic Acid and Magnesium Stearate.

Dr. John Tegzes, VMD, Dipl. ABVT
Dr. Oscar Chavez, BVetMed, MRCVS, MBA

Why Use Calm?

For many dogs, stressful situations can trigger anxious or aggressive behavior. The stimuli can include:

- Loud noises
- Car rides
- Meeting new people
- Grooming
- Crowded public spaces
- Separation anxiety
- Trips to the veterinarian

JustFoodForDogs Calm is a safe alternative to the problem of anxiety. It naturally soothes dogs under stress and helps them feel more calm and comfortable.

Fusion of Natural Ingredients

Calm is a balanced blend of three ingredients that can naturally and safely reduce stress for your dog.

Valerian root has been used for centuries in traditional medicines and is well known for its calming effects. Numerous laboratory studies have shown that this temperate herb calms anxiety, harmonizes the autonomic nervous system and helps promote rest.

Passionflower helps balance a dog’s behavior by reducing anxiety without altering psychomotor functions.

Magnesium, a natural mineral, has been proven to relieve anxiety.

In contrast to pharmaceutical remedies such as anxiolytic drugs, which can have serious, unwanted long- and short-term side effects, Calm’s organic herbs and nutrients can stimulate neurotransmitter synthesis and more naturally affect brain chemistry without the side effects of drugs.

Count on Calm

Calm is a natural sedative that can help dogs that become anxious in specific situations such as a thunderstorm or, like Turbo, suffer from a more generalized form of anxiety. Calm can safely be used in brief intervals or over more extended periods to:

- Decrease anxiety
- Minimize disruptive outbursts
- Lessen destructive behavior
- Improve the quality of life for both dog and family

Veterinarian Developed

Our veterinary supplements address the most common ailments found in dogs. Designed by our board-certified veterinary toxicologist, Dr. John Tegzes, VMD, Dipl. ABVT, in collaboration with JustFoodForDogs Chief Medical Officer Dr. Oscar Chavez, our supplements are a perfect complement to our whole-food nutrition products.

All our JustFoodForDogs veterinary supplements are made in an FDA-certified facility and manufactured under Good Manufacturing Practice (GMP) guidelines. Made only with human-quality ingredients, JustFoodForDogs supplements are safe for people as well.

These statements have not been evaluated by the FDA. These products are not intended to diagnose, treat, cure or prevent any disease.
