

Critical Care Support is designed to help dogs with decreased appetite achieve their energy requirement, while also supporting dogs with cancer by addressing the following key nutritional factors:

- Made 100% with ingredients certified, inspected and approved by the USDA for human consumption
- Moderate protein levels to help maintain lean muscle mass
- High level of fat to address nutrient density and palatability
- Tightly controlled simple carbohydrates to avoid feeding tumor cells
- Limited antioxidants to avoid interference with chemotherapy drugs

"A patient's ability to tolerate cancer therapy can be impacted by their nutritional status, so maintaining adequate calorie and nutrient intake is essential in the cancer patient. The moderate protein levels in Critical Care Support help prevent muscle breakdown and support tissue repair and immune system function, and the increased levels of healthy fats contribute to caloric intake as well as palatability. JustFoodForDogs offers several excellent dietary options for my cancer patients as well as a convenient way for busy people to feed a highly palatable whole food diet."

— Dr. Sara Fiocchi, DVM, DACVIM - Oncology

Critical Care Support Vet Directed Diet 18 oz Fresh Frozen

JustFood ForDogs®

More life. More years. More love.™

DIET OVERVIEW

100% of the ingredients in our Critical Care Support recipe are approved for human consumption. This recipe is formulated to be exceedingly palatable for the most critical cases and is our most densely caloric recipe; it is restricted in simple carbohydrates and contains increased calories from protein, fat and increased omega 3 fatty acids. This nutrient rich diet is intended to manage **anorexia** and **cancer cachexia** and is formulated to meet the following key nutritional factors:^{1, 2, 3, 4}

- Increased Highly Digestible, High Quality Protein
- Low Omega 6 to Omega 3 Ratio
- Balanced For Long-Term Feeding Under Veterinary Supervision
- Increased Highly Digestible, High Quality Fat
- High Caloric Density for Weight Gain or Maintenance

DIET INDICATIONS

- Critical anorexic cases and low appetite dogs requiring a moderate to high caloric level
- Management of neoplastic disease with or without concurrent chemotherapy

CONTRAINDICATIONS

- Sensitivity to any of the ingredients
- History of pancreatitis/hyperlipidemia
- Growing puppies

INGREDIENTS

- **USDA Certified Ground Beef** is considered a high-quality source of protein and is also rich in iron and zinc, as well as vitamins B12 and B6.
- **USDA Certified Chicken Thigh** is an excellent source of protein, vitamin B-6, pantothenic acid, phosphorus, zinc, selenium and niacin, and delivers more vitamin B, iron and antioxidants than its white meat counterparts.
- **USDA Certified Beef Liver** is a nutrient dense food. Ounce for ounce, it contains the most concentrated volume of protein and vitamin A. It's a rich source of heme-iron, the most absorbable form of iron, and is high in bioavailable copper, folate, riboflavin, niacin, phosphorus and zinc.
- **USDA Certified Chicken Liver** contains a concentrated volume of protein and vitamin A. It's rich in heme-iron, a highly bioavailable form of iron, and is also high in bioavailable copper, folate, riboflavin and niacin.
- **Long Grain Brown Rice** is loaded with B vitamins and minerals, such as magnesium and zinc, and is an excellent source of complex carbohydrates.
- **Flaxseed Oil** is an excellent source of the essential fatty acid linolenic acid, which is important for healthy maintenance of coat quality/sheen.
- **Coconut Oil** contains medium chain triglycerides (MCTs), which have been shown to increase the liver's efficiency at metabolizing energy from fat, helping to maintain dogs at their ideal weight.
- **Safflower Oil** is high in essential Omega 6 fatty acids including linoleic acid, which has been linked to reports of improvement in coat quality/sheen.

INGREDIENTS (Cont.)

- **Beef Fat** increases the palatability of diet and is a great source of linoleic acid, which is important for healthy maintenance of coat quality/sheen. ¹
- ¹ National Research Council Ad Hoc Committee on Dog and Cat Nutrition, 2006
- **Icelandic Premium Fish Oil** is sourced directly from the world's cleanest, purest and greenest sources. This exclusive supplement is pure, potent, natural and detoxified, and provides Omega 3 fatty acids in highly biologically available forms of EPA and DHA.
 - **JustFoodForDogs Nutrient Blend** is formulated specifically to meet NRC standards. The blend is compounded from 100% human grade nutraceuticals regulated by the FDA.

NUTRITIONAL SUITABILITY STATEMENT

This diet has been formulated for the nutritional management of neoplastic disease. For use under direction of a veterinarian.

RECOMMENDED DAILY FEEDING GUIDE (feeding amount per day)

For best results it is recommended that pet owners weigh the food in ounces using a digital scale. If they do not have a scale, they may estimate volume in cups per the chart below. The chart is only a guide; always adjust feeding recommendations based on careful monitoring of the weight of the patient.

Wt (lbs)	Oz (wt)	Cups (est)	Wt (lbs)	Oz (wt)	Cups (est)
5 - 10	2 - 4	0.25 - 0.5	75 - 80	17 - 18	2.75 - 3.0
15 - 20	5 - 6	0.75 - 1.0	85 - 90	19	3.0 - 3.25
